

As a resident of Rancho Cucamonga, Air1 is a huge asset to me. I use Air1 to stay focused on my religion and what is important to me throughout the week, rather than just every Sunday. Air1 is the only station that plays the kind of music I like to hear (rock/hard rock) without mixing in all kinds of debauchery (like flashing, sexual content, and a contest where the grand prize is a visit to a Nevada brothel - all of which seem to be the norm on KCAL).

Without Air1, there would be no "clean" radio station available to me in this community that plays music I would be interested in. I would either have to compromise my morals, or listen to classical music every day. Because of Air1, the entire Inland Empire, and in fact, the whole country, has a source of high quality music that promotes decency and moral living.

AIR1 IS SUCH AN ASSET TO THESE COMMUNITIES THAT LISTENERS LIKE MYSELF PAY OUT OF THEIR OWN POCKET FOR THE PRIVILEGE OF LISTENING TO THIS GREAT RADIO STATION.
